Live Global Data Access

Intelligence for the Financial Class & Research.

YourMyDS® empowers students and academicians with institutional-grade
Statistics, **Visualization**, and a **Global Financial Database**.

Get Started for FreeUniversity Partnership

Global Financial Database

Access 20+ years of historical data from NYSE, NASDAQ, IDX, LSE, and 50+ other exchanges. Clean, adjusted, and ready for research.

Statistical Engine

Built-in regression, correlation matrices, and hypothesis testing tools. No complex coding required.

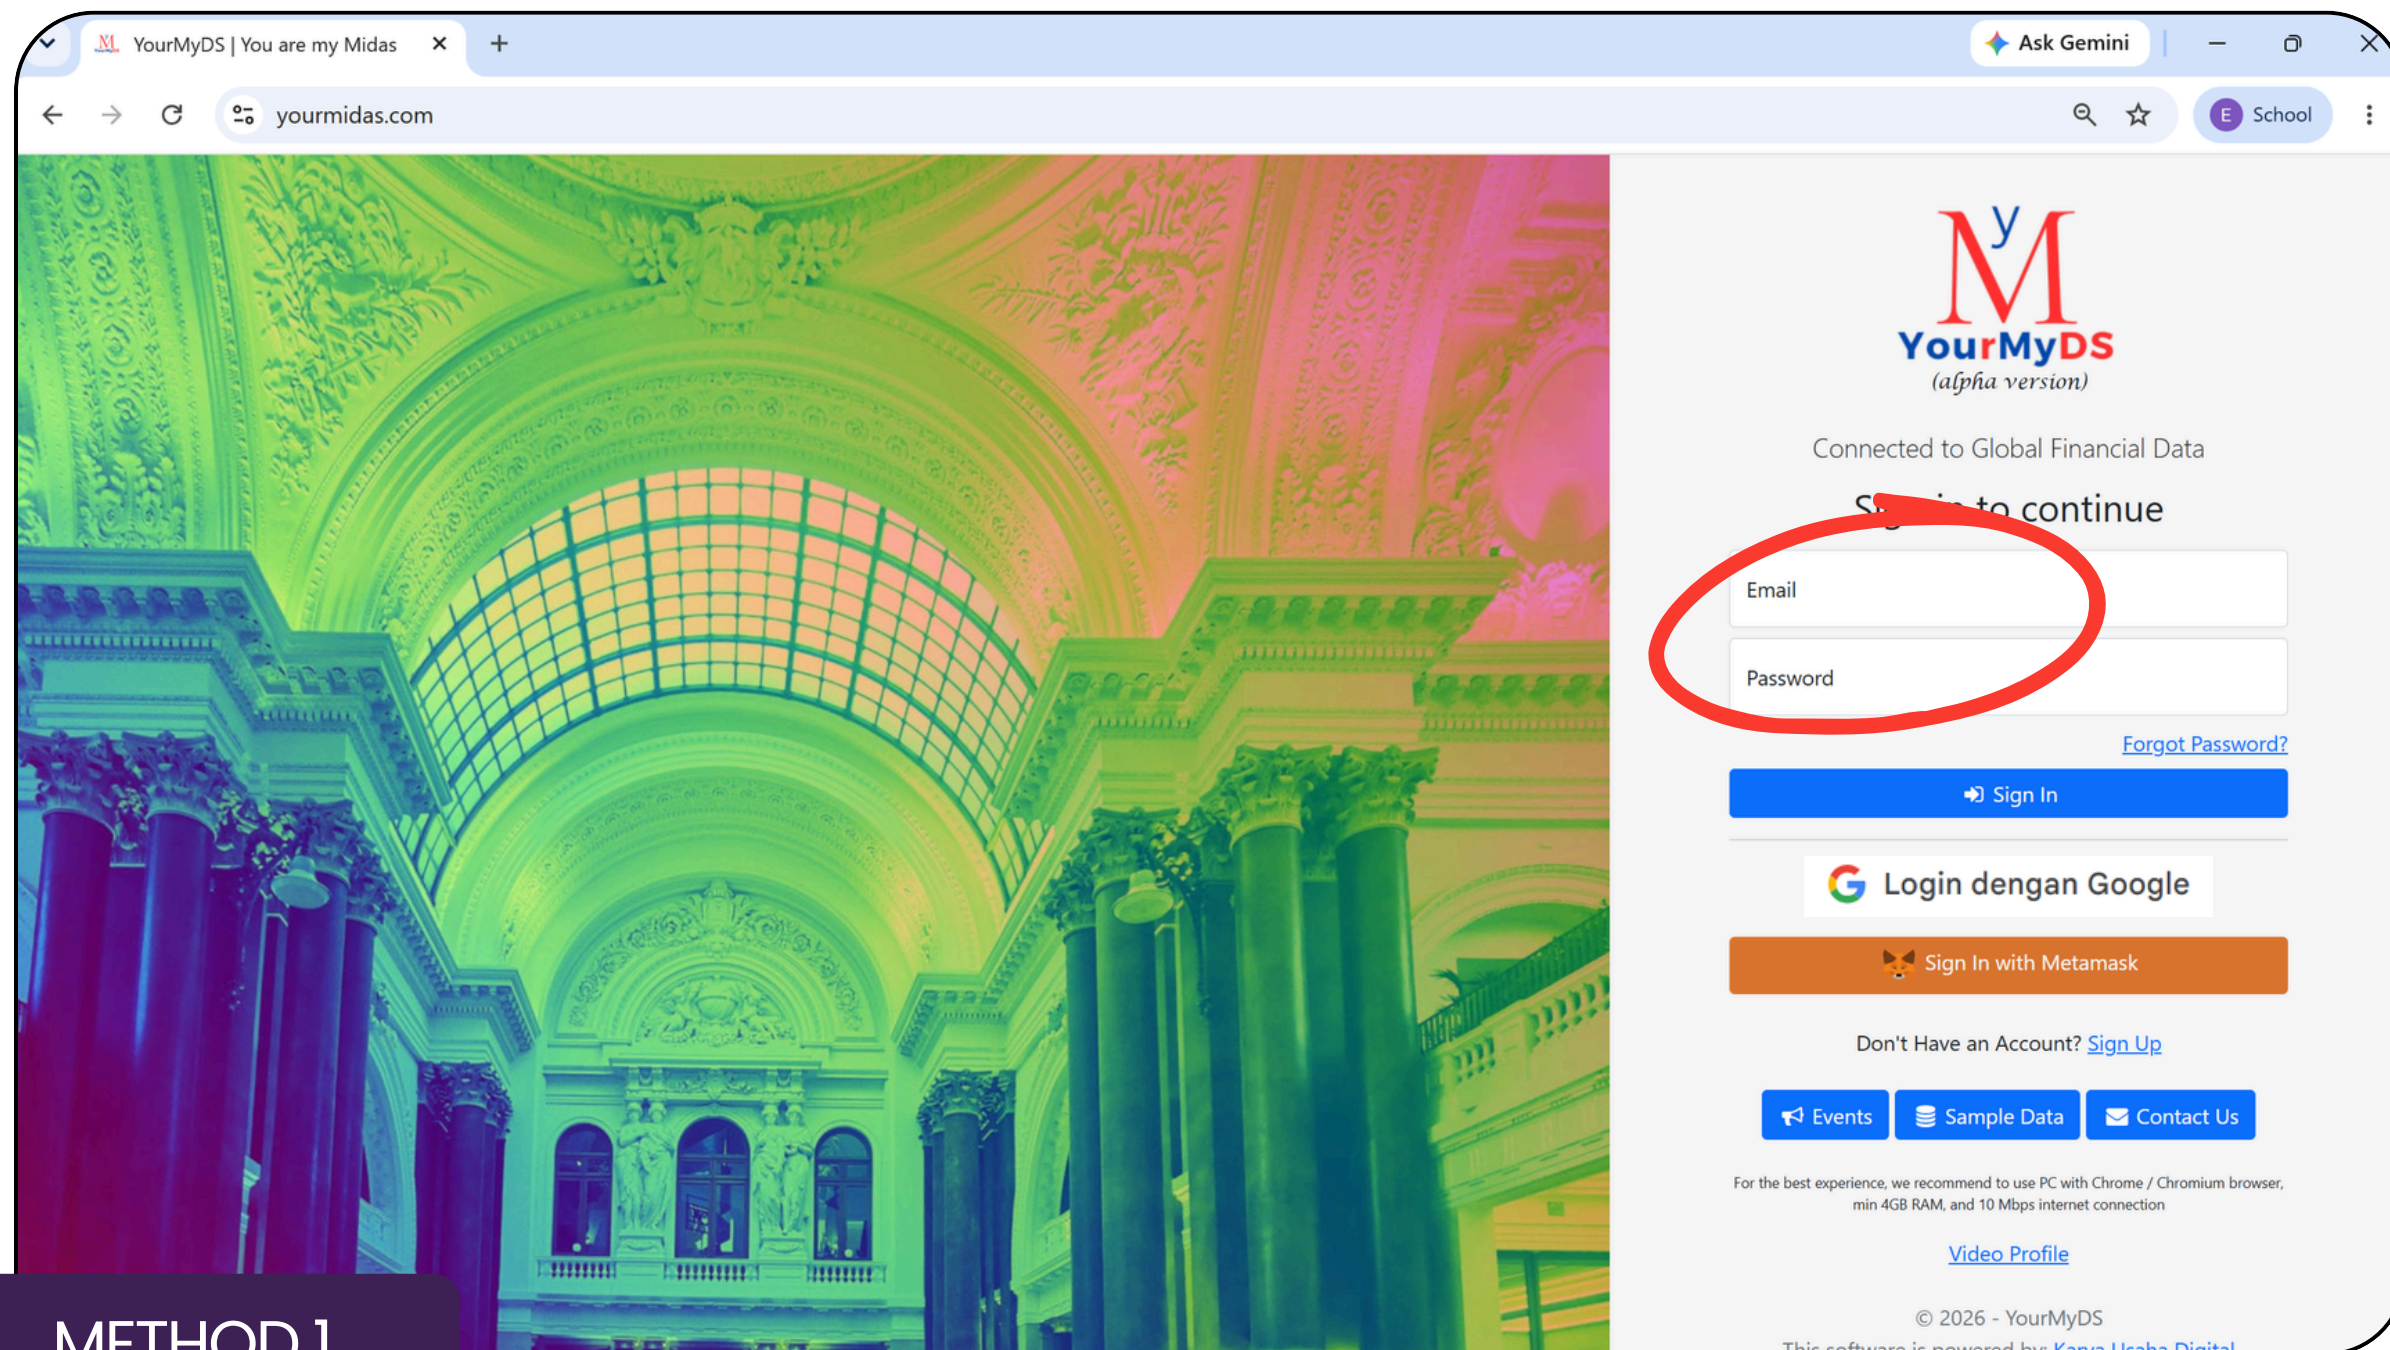

Data Visualization

Turn complex datasets into publication-ready charts, interactive dashboards, and storyboards for academic presentation.

Set Data

YOURMIDAS also provides geographic and map-based visualizations. The first step is the same as the basic visualization technique. Next, click "coordinate system (geographic)."

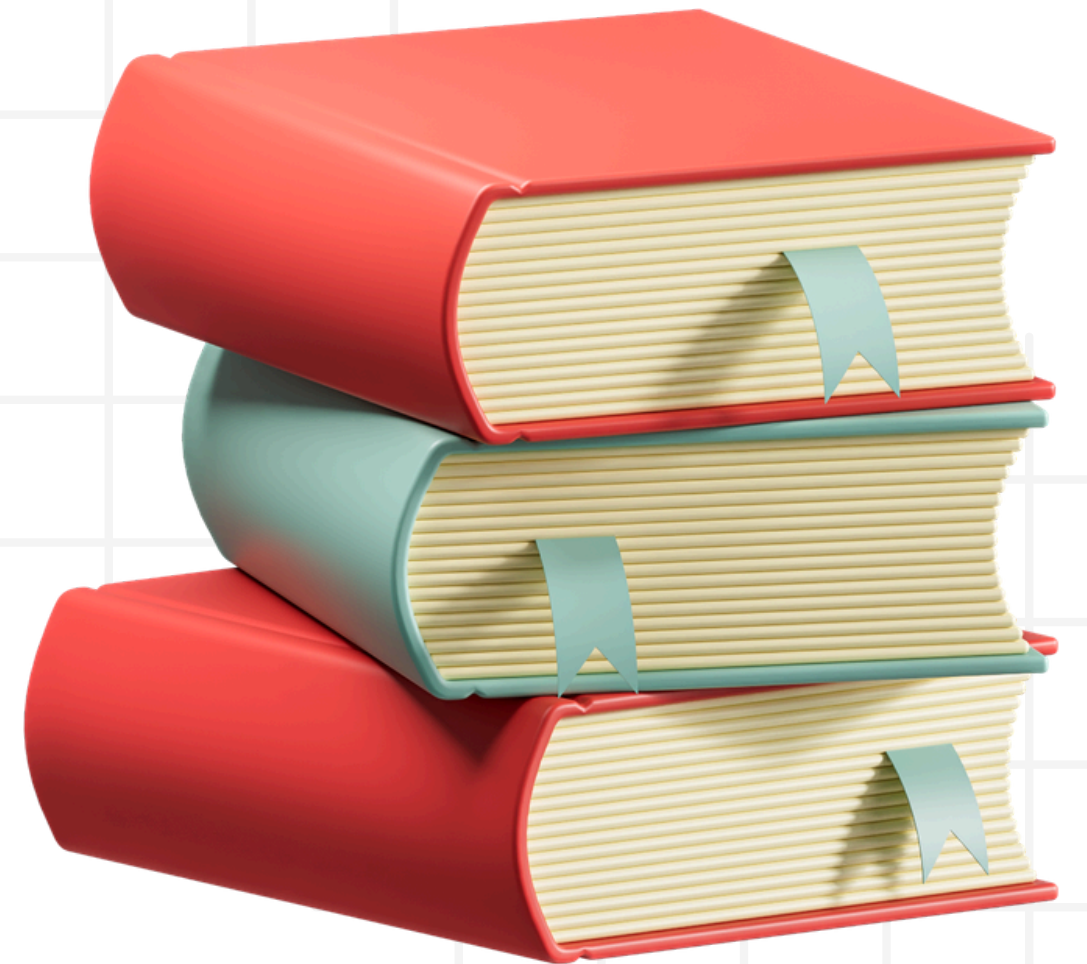

In the longitude section, users can move the list of "**country.longitude**" fields and also move the list of "**country.latitude**" fields. This visualization represents the gdp per cap for each country.

You can also customize the color palette by clicking the "config" menu and selecting "Cividis." You can also filter the data using gdppercapi(mean) in the size field and using the dual filter in the color field. The larger the gdppercapi, the larger the size and the deeper the opacity of the displayed colors.

EXERCISE:

Create Visualizations using
the **MacroIndicators**
dataset and communicate
the results

WORKING WITH GLOBAL FINANCIAL DATA

- **Multi-exchange coverage:** Access to financial data from exchanges worldwide
- **Comprehensive** financial metrics
- **Token-based** access system:
- **Time-series** analysis: Historical data with automatic year-over-year comparisons
- **Multi-company** analysis: Side-by-side comparisons of financial performance across companies
- **Automatic time comparison:** "T-minus" feature for automatic comparison of prior periods

This integration eliminates the traditional barrier between data acquisition and insight generation, enabling financial analysts to seamlessly move from raw data to strategic visualizations without switching between specialized applications or manual data processing steps..

Create a New Dataset

The screenshot shows the 'Datasets' page on the YourMyDS website. The URL in the browser is `yourmysds.com/dataset?type=yearly&tab=owned`. The page header includes the YourMyDS logo, a search bar, and a 'Create New' button. Below the header, there are tabs for 'My Datasets' (1), 'Shared With Me' (0), and 'Public' (8). A filter for 'Financial Data (Yearly)' is selected. The main content area displays a single dataset card titled 'Dataset-new' with a 'YEARLY' frequency. The card shows 'TOTAL ENTRIES' as 0 and is owned by 'You' with a 'PRIVATE' status. A red circle highlights the 'Dataset-new' title. At the bottom, there is a 'Watch Video Profile' link and a disclaimer about data accuracy.
